17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

We propose to change the planned downhole location on this directionally drilled well to 2145' FWL and 825' FSL of Section 4, T-23S, R-31E. This is in response to NMOCD Order No. R-9319, to allow us to drill a standard location and have a 165 foot tolerance in the placement of the wellbore at T.D. (Attached is a revised directional plan).

18. I hereby certify that the foregoing is true and correct.
