17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

"CONFIDENTIAL"

On 2-18-92, 875 barrels of test oil was sold from frac tanks to Enron Trading and Transportation Co., Houston, TX. Well is currently shut-in awaiting the location of a gas sales point and the economic feasibility of laying line to that sales point. Upon the procurement of a sales point, we propose to construct a tank battery comprised of a separator, heater treater, 2 steel (12' tall) tanks for oil, and 1 fiberglass (12' tall) tank for water. The tanks will be situated in a north-south line on the eastern side of the well location. Expected pumping equipment is less than 20' in height. All equipment will be painted Juniper Green.

I hereby certify that the foregoing is true and correct
