Attn: Patrick J. Tower

Dear Sir:

We acknowledge receipt of your request for approval of Enron's James Ranch Unit #18 well. The Commissioner of Public Lands approves this location. However, you are reminded that the location is within the buffer zone of an LMR filed by Western Ag-Minerals. It may be challenged according to OCD Rule R-111-P. This approval is also contingent upon final approval by the Oil Conservation Division.

Sincerely

JIM BACA
