12. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Santa Fe Energy Oper. Part., LP respectfully submits the attached bond log which was run to determine the cement quality over the Capitan Reef. The bond log indicates that there are no gaps in the cement over the Capitan Reef - therefore, it is our opinion that we will not be required to circulate cement to surface on the production casing cement job. This was confirmed in a conversation between Mike Stuffield with the NMOC and Dugan Douglas of SFEOP, LP on February 2, 1993.

Bond log attached.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
