13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Explanation for location construction and drilling at unpermitted location.

Two locations were staked in the 40 ac. unit in the SW/4, SW/4 Section 21. POGO Producing, Co. staked a location at 660' FSL & 330' FWL, and KFOC staked a location at 330' FSL & 330' FWL. POGO had already submitted an APD to drill their location; therefore, it was agreed that their location would be drilled.

On 12/14/92 three dirt contractors were taken to the lease to evaluate location construction bids. They were all shown the drilling pad with the well location stake clearly marked POGO-Pure Gold "A" 2, 660' FSL & 330' FWL. The contract was awarded to H&H Construction, Mr. Dean Strickland, of Carlsbad, NM. When the dozer operator built the location, he inadvertently built it on the pad with the location stake marked KFOC-Pure Gold "A" 2.

The error was not discovered until after the well was spudded and surface casing set.
