(Note: Report results of multiple completions on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

We have moved this location 330' north and 330' west and re-staked the proposed wellsite. An archaeological survey was made and a copy of the report will be sent to your office. If approved, we plan to drill this well as soon as possible. A new plat, access road map and topo map are enclosed depicting the new well site. Barry Hunt has been consulted and will perform an onsite inspection.
