MULTI-POINT SURFACE USE AND OPERATIONS PLAN

Yates Petroleum Corporation
Redbone "BP" Fed. #2
1980' FNL AND 660' FEL
Sec. 10-T24S-R24E
County Eddy, State New Mexico

This plan is submitted with Form 3160-3, Application for Permit to Drill, covering the above described well. The purpose of this plan is to describe the location of the proposed well, the proposed construction activities and operations plan, the magnitude of the surface disturbance involved and the procedures to be followed in rehabilitating the surface after completion of the operations, so that a complete appraisal can be made of the environmental effect associated with the operations.

1. EXISTING ROADS:

Exhibit A is a portion of the BLM map showing the well and roads in the vicinity of the proposed location. The proposed wellsite is located approximately 58 miles southwest of Artesia, New Mexico and the access route to the location is indicated in red and green on Exhibit A.

DIRECTIONS:

- 1. Go south of Artesia on US 285 to Sitting Bull Falls Road, 137, turn west.
- 2. Go on 137 for 9.3 miles to fork in road go left for approx. 11.5 miles.
- 3. Turn left on 408, Dark Canyon Road for approx. 9.5 miles.
- 4. Turn south on caliche road for approx. 1.1 miles to gate go thru and
- 5. take next right to another gate, go thru gate on main caliche road.
- 6. to start of new road being approx. 4.4 miles on caliche road.
- New road starts here going south.

2. PLANNED ACCESS ROAD

- A. The proposed new access will be approximately 2000' in length from the point of origin to the southeast of the drilling pad. The road will lie in a(n) north to south direction.
- B. The new road will be 14 feet in width (driving surface) and will be adequately drained to control runoff and soil erosion.
- C. The new road will be bladed with drainage on one side. Some traffic turnout will be built.
- D. The route of the road is visible.
- E. Existing roads will be maintained in the same or better condition.

3. LOCATION OF EXISTING WELL

- A. There is drilling activity within a one-mile radius of the wellsite.
- B. Exhibit D shows existing wells within a one-mile radius of the proposed wellsite.
