Attn: Mr. William J. LeMay - Director

Dear Mr. LeMay:

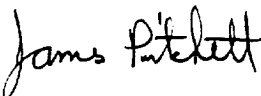

Chevron U.S.A. proposes to drill the Lentini Federal 1-22 in the East Herradura Bend (Delaware) Oil Pool. The location of the proposed well is 990' FNL and 2310' FWL in Section 1, T-23-S, R-28-E, Eddy County, New Mexico.

The proposed well location is on an existing standard 40 acre East Herradura Bend oil proration unit. Production from this proration unit is currently assigned to the Lentini Federal 1-2. We respectfully request your approval of the simultaneous dedication of production from both wells in the unit.

A copy of this administrative application was provided to the offset operator via Certified Mail. Attached is a map and a Form C-102 plat illustrating the proration unit acreage and well location. Also, included is a copy of the letter sent to the offset operator.

If you have any questions, or if you require further information, please contact James Pritchett at (915) 687-7145.

Sincerely,

James Pritchett
Petroleum Engineer
