Administrative Application for
Simultaneous Dedication
East Herradura Bend Delaware Oil Pool
Lentini Federal 1-22
990' FNL and 2310' FWL
Section 1, T-23-S, R-28-E
Eddy County, New Mexico

Fortson Oil Company
301 Commerce Street
Suite 3301
Ft. Worth, Texas 76102

Dear Sir:

This letter is a correction of letter (14109.doc) dated February 24, 1995. The heading in that letter included "Unorthodox Well Location." However, the correct request is for "Administrative Application for Simultaneous Dedication" only. We apologize for any inconvenience our error may have caused you.

Please find attached a copy of Chevron USA's application to the New Mexico Oil Conservation Division for simultaneous dedication of the proposed Lentini 1-22 well, 990' FNL 2310' FWL, Section 1, T-23-S, R-28-E, East Herradura Bend (Delaware) Field, Eddy Co., N.M. Chevron has requested that the production from the proposed well be simultaneously dedicated to an existing standard 40 acre oil proration unit currently producing from the Lentini 1-2 well.

If you have any questions or require further information, please call James Pritchett at (915) 687-7145.

Sincerely,

James Pritchett
Petroleum Engineer
New Mexico Area
