13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Tim Bussell, Assistant Drilling Superintendent with Yates Petroleum Corporation, received verbal permission from Shannon Shaw with the BLM in Carlsbad for a change in BOP requirement as follows:

Request variance from Onshore Order 2; III;A,I - BOP Requirement:

request variance to install BOP on 9-5/8" casing instead of 13-3/8" casing. This is due to the fact that the interval from surface casing at 350' to intermediate casing at 1630' is a water zone and experiences loss of circulation rather than abnormal pressures.

14. I hereby certify that the foregoing is true and correct
