Re: Black River 10 Fed. Com 1
SWNW Section 10-T24S-R26E
Eddy County, NM

Dear Sirs:

Attached please find initial gas well multipoint test results for the above referenced well. A pipeline deliverability could not be measured for this well due to the well's flow capacity and production equipment capacity limitations. The calculated deliverability as shown on the attached forms C-122 and C-122-C is 17,440 MCF/D.

Please do not hesitate to call if you have any questions regarding the above.

Sincerely,

Ray E. Jones
Vice President, Engineering

REJ/liw
