13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Pogo Producing Company request a change in the surface hole size for the above stated well. This will allow us to run 10-3/4" casing instead of 8-5/8" surface casing. After reviewing problems on the offset Section 21 we think that this size surface casing would allow us to run a 7-5/8" scab casing string to protect against troublesome formation below the Rustler. This string would only be run after BLM notification and approval. All other aspects of the permit will remain the same.

14. I hereby certify that the foregoing is true and correct.
