Dear Operator:

In reference to the Lentini 1 Fed No. #17 and the approved injection pressure increase dated July 18, 2001.

I apologize for the typographical error on the original violation letter, however the witnessed injection pressure on this well was 1020 psi which is 220 psi over the maximum allowable pressure.

We request you look into this matter prior to the original "Corrective Action" date.

Respectfully,

Gerry Guye  
Compliance Officer  
District II - Artesia
