

T23S, R31E, Arita K. Slate.

No cultural properties were recorded during this survey.

In the past, this area was visited regularly by social units engaged in hunting and gathering pursuits. Actual usage was brief and transitory at any one time. Reflecting utilization of this type, cultural remains should occur on a random, non-patterned basis.

Recommendations

NMAS recommends clearance for DEVON ENERGY CORPORATION's proposed Todd "13" Federal Well No. 1 and its access road and suggests that work-related activities proceed in accordance with company (Fig. 1). Clearance, of course, is granted by the Bureau of Land Management. If cultural resources are encountered during construction, the BLM and NMAS should be notified immediately. Dune settings are notorious for covering and uncovering cultural properties.

Todd "13" Federal Well No. 2

Location

The proposed location will measure 400 X 400 ft (actual area surveyed 4.44 acres) on federal land and will be situated 660 ft from the south line and 1980 ft from the west line.

Section 13, T23S, R31E, NMPM, Eddy County, NM

Thus it will be situated in the:

SE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 13, T23S, R31E, NMPM, Eddy County, NM

The associated access road will measure approximately 100 X 950 ft (actual area surveyed 2.18 acres) and will be situated
