

plains brittle grass, mesa dropseed, poverty threeawn and bush  
muhly.

#### *Cultural Resources*

Prefield: 19 June 1992, Section 14 (no archaeological sites),  
T23S, R31E, Arita K. Slate.

No cultural properties were recorded during this survey.  
Albeit not encountered, expected cultural properties should they  
occur, should include isolated random occurrences of debitage,  
cores, angular debris, projectile points, etc. Isolates reflect  
en passant utilization of the landform in the past.

#### *Recommendations*

NMAS recommends clearance for DEVON ENERGY CORPORATION's  
proposed Todd "14" Federal Well No. 2 and its access road and  
suggests that work-related activities proceed in accordance with  
company plans (Fig. 1). Clearance, of course, is granted by  
the Bureau of Land Management. If cultural resources are encountered  
during construction, the BLM and NMAS should be notified immediately.  
Duned settings are notorious for covering and uncovering cultural  
properties.

#### Todd "13" Federal Well No. 1

#### *Location*

The proposed location will measure 400 X 400 ft (actual area  
surveyed 4.44 acres) on federal land and will be situated 660 ft  
from the south line and 660 ft from the west line.

Section 13, T23S, R31E, NMPM, Eddy County, NM

Thus it will be situated in the:
