Devon Energy Production Company, L.P.'s – Federal Sundry for the Todd '13M' Federal #31, located in Unit M of Section 13, Township 23 South, Range 31 East, Eddy County, New Mexico, NMPM.

Dear Sirs/Madams,

In reference to the above noted well, the Oil Conservation Division in receipt of your sundry notice dated 8/06/2002 and submitted to the Bureau of Land Management. This sundry notice describes in detail work on the drilling, casing and cementing procedures. As you are aware, this well lies within the Known Potash Leasing Area (KPLA), which is governed by R-111-P.

In reviewing your subsequent report, I see that in cementing the 5 1/2" production string on or about July 25, 2002, there is no indication of circulating cement to surface as required by R-111-P.

Please indicate your intentions to have this well be in compliance with R-111-P as the Oil Conservation Division cannot issue an approve authorization to produce said well.

Please feel free to call this office if you have any questions or concerns regarding this matter.

Yours truly,

Bryan G. Arrant (PES)
