

ABSTRACT

On April 5, 1992, Pecos Archeological Consultants (BLM Cultural Use Permit No. 6-2920-91-K, State Blanket Survey Permit No. 92-024) undertook an archeological inventory for five drill locations and attendant road easements scheduled to be impacted by Devon Energy Corporation. This project will be situated on public lands in Eddy County, New Mexico. These lands occur in section 23 and 26, T23S, R31E, NMPM, Eddy County, N.M. A total of 15.27 acres of federal surface ownership were investigated during this project, which was conducted in 6 man-hours by James E. Hunt. No cultural resources were recorded during this project. Due to the limited nature of the cultural remains within the impact zone, Pecos Archeological Consultants recommending clearance for this project, as planned.
