

SURFACE USE AND OPERATING PLAN

Attachment to Form 3160-3
Devon Energy Corporation (Nevada)
BARCLAY "11K" FEDERAL #11
1930' FSL & 1980' FWL
Section 11-T23S-R31E, Unit K
Eddy County, New Mexico

1. Existing Roads

- A. The well site and elevation plat for the proposed Barclay "11K" Federal #11 are reflected on Exhibit #2. This well was staked by Topographic Land Surveyors of Midland, Texas.
- B. All roads into the location are depicted in Exhibit #3. County Road #798 will be used to access the location. No upgrades to roads are planned other than the access into location.
- C. Directions to location: Travel west-northwest from Jal, NM approximately 35 miles on State Highway #128 to County Road #798, just into Eddy County from Lea County. Turn right (north) onto County Road #798 and travel approximately 4.7 miles. Turn left (west) and go approximately 0.3 mile on lease road to Barclay "11G" Federal #7. Turn left and go approximately 0.3 mile west-southwest to the proposed Barclay "11K" Federal #11 location.

2. Proposed Access Road

The construction of approximately 1850' of new lease road will be required to access this location (See Exhibit #3). All new road construction would adhere to the following specifications:

- A. The maximum width of the road will be fifteen (15) feet.
- B. It will be crowned and made of 6 inches of rolled and compacted caliche. Water will be deflected, as necessary, to avoid accumulation and prevent surface erosion.
- C. Surface material will be native caliche. This material will be obtained from a BLM approved pit nearest in proximity to the location.
- D. The average grade will be approximately 1%.
