The APD to drill this well was approved 9-4-2002, based on setting 8 5/8" surface casing at 0-400'. We request approval to set 9 5/8" casing (36#, H-40) at 0-460' in the 12 1/4" hole. Cement will be circulated to surface.

Approval is also requested to drill to total depth with an 8 3/4" bit rather than the originally proposed 7 7/8" bit. The larger bit may lessen open hole logging problems.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
