Dear Sir:

I inspected your dry hole in NW NW of Section 16, Township 26 South, Range 28 East, in Eddy County, New Mexico.

I found that you failed to put the exact location on the 4 inch marker. Please put the quarter-quarter, Section, Township, Range on the marker with a torch or steel stencil so it will be permanent.

I also found an open hole just north of the dry hole, this hole has casing in it. It must have been a water well, if you left this well for the rancher please have him sign a letter showing that he will take full responsibility of this well.

Please take care of this matter at once.

Yours very truly,

Dear Sir:

I requested your help in the case of a person in Town-
ship 2, Range 33 East, in 1967, named "John Doe".

I found that you failed to find the exact location of the
"John Doe" person. Please let the person know that "John
Doe" is on the way with a letter or steel stamp so to
be in the person's hands.

I also found an open hole just north of the very hole, this
hole was found in 1967. It must have been a water well, in 1967
but this well for the rancher please have him check this well.
The fact he will take full responsibility of this well.

Please take care of this matter as soon.

Yours very truly,
