New Mexico Oil Conservation Commission
205 Carper Building
Artesia, New Mexico

Gentlemen:

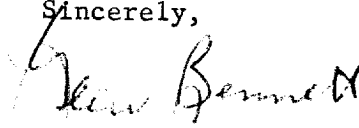

Enclosed are the following forms, filed in quadruplicate, reporting the plugging of my #1 Humble State, Section 21, 26S, 28E, Eddy County, New Mexico, in accordance with New Mexico Oil Conservation Commission regulations:

Form C-102, Notice of Intention to Plug
Driller's Log as received from Aldridge and
Stroud, Contractors
Form C-103, Report of Plugging

The pits on this well will not be ready for inspection for a few more days; I will notify you of the date. Since we are now drilling on the #1 Fowlkes, which is about a mile away from this well, I suspect that it will be more convenient for you to inspect both of these locations at the same time. We expect to be through with the #1 Fowlkes in 30 days.

If these forms are incorrect or incomplete in any way, or if anything else is necessary, please let us know at once so that we may make any necessary changes.

Sincerely,

J. Glen Bennett
