Run 7-5/8" Casing to 1255' to shut off water so drilling with cable tools can continue. Used mud to shut water off.

Used 7 sacks of mud to shut off water.

Water at 1250'
No 8 5/8" casing was set due to the fact that no water was found until we reached 1250'.
Our form 101 -C form said that we would set 250' of 8 5/8" casing and this was not set for the reason stated above.
