Re: Gulf Federal ~~Hankamer~~ "A" #3 6-13-24-21
Brushy Draw (Delaware) Field

Dear Mr. Williams:

With regard to the above referenced well, please be advised that the well is currently on production. The well has produced a very small amount of oil and very large quantities of water. It is our intention to pump the well thru the end of 1991. If at that time no quantities of oil are being produced, the well will be plugged during the first quarter of 1992.

Should you have any questions, please advise.

Very truly yours,

Gregory A. Herbst
