ARTESIA, OFFICE

Mr. M. L. Armstrong, Jr.
State of New Mexico
Oil Conservation Commission
321 Carper Building
Artesia, New Mexico

Dear Mr. Armstrong:

Attached you will find corrected copies of our form C-104 for our Gulf-Beaty well #1 Eddy County, New Mexico.

I have read your rule No. 301, Gas-Oil-Ratio Test in the Rules and Regulations of the New Mexico Oil Conservation Commission and I am not clear as to the status of the Gulf-Beaty #1. This well was drilled as a development well and is located within one mile of a producing well in a designated pool, Brushy-Draw (Delaware) Pool. We have not received a Gas-Oil-Ratio Schedule for this pool. Is the Brushy-Draw (Delaware) Pool an exempt pool? In the event this pool has been set up on a schedule, please notify us with copies hereafter.

A Gas-Oil-Ratio Test will be run within the period of 30 to 60 days following the completion on the Gulf-Beaty #1 and will be submitted to your office on Form C-116 after completion of this test.

I have noticed on our Form C-104 which you returned for correction that a notation was made that the Brushy-Draw (Delaware) Pool is undesignated. We forwarded Form C-123 to your office January 12, 1959 and received a new pool designation March 30, 1959.

Sincerely,

Phil C. Hankamer,
Engineer
