Re: Poker Lake Superior
#1-K-8-25-30

Gentlemen:

According to our records the above captioned well is a temporarily abandoned gas well and has been since 1978.

If the well has been re-completed in the Delaware formation, C-103's showing work done, completion report and a C-104 filed, showing amount of allowable requested for the well, must be filed with this office before an allowable can be approved.

We have received approval on the bond from Santa Fe changing the well to Jubilee Energy Corp. from Maralo, Inc., but as of now the well does not show to be producing and does not have an allowable.

Please let us know the present status of the well.

Sincerely,

A handwritten signature in cursive script, reading "Les A. Clements".

Les A. Clements
