(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Attempt re-plug per R-7781 from 9-12-85 to 9-23-85, on a 24-hr. day basis as follows:

Notified NMOCD-Artesia & BLM-Carlsbad 24-hrs. prior to MIRU M&W Rig #1.

Drilled up 4" line pipe and cement in 9 5/8" from 14'-44'. Drilled up CIBP set at 46' in 9 5/8". Drilled cmt. plug in 9 5/8" csg. from 232'-351'. Found 9 5/8" shoe at 351' (reported set at 350'), drilled cmt. plug in open-hole from 578'-625'. Old open-hole kept caving-unable to get below 768' in open hole. Rec'd NMOCD-Artesia permission to abandon re-entry attempt on 9/23/85, and plugged well per NMOCD as follows: *35-sx. "C" cmt. plug with 2% CaCl 628-708' (tagged)
*40-sx. "C" cmt. plug with 2% CaCl from 230'-400' (tagged)
*10-sx. "C" cmt. plug at surface

#Restored location and set dry-hole marker--READY FOR FINAL INSPECTION.

Mike Stuffield, NMOCD Artesia, witnessed all plugs & tags.

(NOTE: Re-entry attempt cost \$55,000+)

I hereby certify that the foregoing is true and correct
