Re: Response to your letter dtd
05/02/91 on TA wells.

Dear Mr. Williams:

Hanson Operating will recomplete Hanson Federal Battery #2, wells #8 and #17, within the next three (3) months. Sundry notices are being filed at this time, copies attached, which show the particulars on the procedures to be followed.

Regarding the Hitchcock A Federal #6, Hanson Operating is in the process of contacting its partners, and we are waiting on their recommendations. Within three (3) months, we will have plans finalized on this well.

Sincerely yours,

HANSON OPERATING COMPANY, INC.
