The elevation of the derrick floor above sea level is _____ ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

8-inch casing run to a depth of 223 feet and mudded. This casing was pulled when well was plugged. Set 20 feet 10 3/4-inch casing and cemented with 20 sacks cement. Work performed on 8/15/63.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
