17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including date of completion or recompletion of well, and date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths to each marker and zone pertinent to this work.)*

After testing Delaware zone which was dry.

Well was plugged as follows:

100 ft. cement over perforations 3191 - 3090
cut and pull 5½" casing at 2730 ft.
100 ft. cement in and out of 5½" csg. 2780
100 ft. cement at 600 to 700 ft.
cut and pulled 7" csg. from 210 ft.
20 ft. surface plug and regulation marker.
Heavy mud between all plugs
Clean and level location

18. I hereby certify that the foregoing is true and correct

Instructions

General: This form is designed for submitting proposals to perform certain well operations, and reports of such operations when completed, as indicated, on Federal and Indian lands pursuant to applicable Federal law and regulations, and, if approved, accepted by any State, on all lands in such State, pursuant to applicable State law and regulations. Any necessary special instructions concerning the use of this form and the number of copies to be submitted, particularly with regard to local, area, or regional procedures and practices, either are shown below or will be issued by or may be obtained from the local Federal and/or State office.

Item 4: If there are no applicable State requirements, locations on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal office for specific instructions.

Item 17: Proposals to abandon a well and subsequent reports of abandonment should include such special information as is required by local Federal and/or State offices. In addition, such proposals and reports should include reasons for the abandonment; data on any former or present productive zones or other zones with present significant fluid contents not sealed off by cement or otherwise; depths (top and bottom) and method of placement of cement plugs; mud or other material placed below between and above plugs; amount, size, method of packing of any casing, liner or tubing pulled and the depth, casing of any left in the hole; method of disposing of well, and date well site conditioned for final inspection looking to approval of the abandonment.
