13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Texaco requests permission to shut-in this well until further notice.

Justification: A \$2,400,000 Cotton Draw 3D seismic acquisition was completed in early March of 1995. Texaco is currently processing the 3D survey. Texaco would like to hold the deeper Cotton Draw wells in idle/TA status until the seismic data can be completely analyzed. A one year status time period should be sufficient to draw accurate conclusions from the 3D seismic work and present a plan to return this well to production.
