13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Texaco Exploration and Production Inc requests an extension of one year of the temporary abandonment status of the above well which ended on 4/5/99. The original temporary abandonment status was approved on 5/17/95 based upon the results of a casing integrity test conducted on 3/31/95 and witnessed by BLM representative Andy Cortez. The casing and plug were successfully tested to 520 psi for 30 minutes. TEPI requests TA status on this well through 4/5/2000. A copy of the 4/5/95 test chart is on back.

Justification: A \$2,400,000 Cotton Draw 3D seismic acquisition was completed in late 1995. Texaco is processing the 3D survey. Texaco would like to hold the deeper Cotton Draw wells in idle/TA status until the seismic data can be completely analyzed.

(INTERNAL TEPI STATUS REMAINS TA-MB)
