Re: Form C-122, Multipoint and One Point  
Back Pressure Test Report, Cities  
Service Oil Company's Government "M"  
No. 3, located in Unit G, Sec 27-25S-24E,  
Eddy County, New Mexico in the Washington  
Ranch Pool.

Gentlemen:

On August 21, 1972 a Multipoint Back Pressure Test was attempted on this well. Due to the well's producing characteristics adequate data could not be attained and the test was not completed.

Prior to testing, the flow rate was 1000 MCFD at 1650 psig tubing pressure. Following the shut-in period and test the well was flowing 340 MCFD at 870 psig tubing pressure.

Cities Service respectfully requests an exception to Rule 401 of the Commission's Rules and Regulations.

Yours very truly,

CITIES SERVICE OIL COMPANY

E. Y. Wilder  
District Manager
