Re: Government M Wells
#2-N, & 3-G, 27-25-24
Washington Ranch Morrow Pool
Eddy County, New Mexico

Gentlemen:

Your request for an Exception to the Shut-In Pressure Test requirement of Commission Rule 402 for the subject wells is hereby approved.

It is my understanding that during previous shut-in, these wells experienced a decline in pressures and difficulty in returning them to production.

If for any reason the wells are shut-in during the year, the tests are to be run and the results reported.

Sincerely yours,
