Re: Black River Corporation's
Thurman #1-C
Sec. 21, 26S, 24E
Eddy County, New Mexico

Dear Mr. Gressett:

The Form C-105 for the above referenced well is attached for re-filing. Through an oversight the 3rd Bone Spring Sand top was not included in the original filing. Black River Corporation's geologist, Mr. Forrest Miller, has indicated that since the well is in the Delaware Basin, the formations listed are the only ones applicable.

The logs and drill stem tests are being sent under separate cover. The deviation tests were mailed to you on September 18, 1972.

Should we have failed any other requirements please advise.

Yours very truly,

J. T. Berry, Agent
Black River Corporation
