The subject well was drilled to a total depth of 11,120 feet and commercial production was not encountered. It is respectfully requested permission be granted to plug the well in the following manner: 100 ft. cement plug from 10,600 up to 10,500' across the Devonian; 100 ft. cement plug from 9,450 up to 9350 across top of Morrow; 100' cement plug from 8600 up to 8500 feet across top of Strawn; 100' cement plug from 7500' - 7400' across top of wolfcamp; a 100 ft. cement spacer plug from 6100'-6000'; 100 ft. cement plug from 4875 to 4775' in and out of the 9-5/8" intermediate casing set at 4828'. No casing will be pulled and the intervals between cement plugs will be filled with mud of 25‡ minimum gel strength. A 20 foot plug will be placed at the surface and an appropriate dry hole marker will be installed at the surface. 1
