13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the final site is ready for final inspection.)

6/19/02 - Casing Integrity Test

Pressured casing to 680 psi for 30 mins. Held OK. Paul Swartz with BLM witnessed test.

Bass Enterprises requests TA status extension for one year while we evaluate the wellbore for other production potential or for possible use as a salt water disposal well. New technologies are continually being developed that may allow us to return the well to production. Also, new plays are constantly being developed in Southeast New Mexico whose profitability may hinge on readily accessible and cheap salt water disposal capacity. It is for these reasons that TA status is requested. As always, Bass will strive to be a prudent operator by performing annual MIT tests so as to ensure the mechanical integrity of the wellbore.
