17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Request for permission to temporarily abandon

This well is at a total depth of 265 feet. We wish to temporarily abandon this test at this depth and delay plugging until the Williamson, Underwood & Ralph E. Williamson A #1 McCarver Federal (Section 27, T26S, R30E, 1980 from West & 660 from South) has been drilled to the Delaware Sand. If the "A" #1 is a producer, we wish to drill the #1 on down to test the Delaware Sand. The "A" #1 is expected to be down to the Delaware Sand March 1, 1974.
