Lease No. LG-9681**

Mr. Mike Williams,

Please find enclosed another C-103 subsequent report of plugging the Chelsi #1 Well. This well was plugged 11-18-92 and has been ready for final inspection since that date. Approval and procedure to plug and abandon this well was given by Mr. Darrel Moore of the Artesia office of the NMOCD. I have not received an approved copy of this C-103 to release my bonds. Please let me know if anything else needs to be done for approval of this report. Thank you for your help.

Very Truly Yours,

H. E. Gene LEE
