Re: Pecos Irrigation State No. 1

Gentlemen:

On July 17, 1976 you made a report to Mr. McCormick of Pecos Irrigation concerning the above well. On August 25, 1977, we requested that you sell the oil on hand and plug the well. As yet, insofar as we know, there has been no action taken on your part to sell, plug or drill another well.

By copy of this letter, we are advising the Oil Conservation Commission that this well is not producing and should be plugged and request that they enter an order directing you to immediately plug the well.

Very truly yours

J. W. Neal
