Alpha Twenty-One Production Co. is in the process of aiding El Paso Natural Gas Co. in the acquisition of the Washington Ranch Morrow field to be used for a gas storage reservoir. The Lindsay #1 is completed in a shallower horizon (Delaware Formation). The projected completion date for this project at this time is July or August of this year. The Lindsay #1 had some shows of oil and gas however completion was not successful. Before we P&A this hole we would like to take a good look at other possible completion techniques that could be used.

With the current storage project on this property and our desire to try to complete a commercial well at this location, we respectfully request that an extension of time be granted to September 30, 1981 in which to put well to beneficial use or plug and abandon.
