Date Last Tested April 2, 1978

Is Well Considered Capable of Production in Paying Quantities?

☒ Yes

☐ No

If Capable of Producing in Paying Quantities, Give Reasons For Not Producing Well.

This well had initial completion problems which indicate that the oil zone is in communication with the water zones. Remedial work has been planned along with a possible development well. It is desired to observe the new well before a decision is made to work over the Poker Lake Unit No. 44 or plug and abandon the well.

If Not Capable of Producing in Paying Quantities, Give Reasons For Not Plugging Well At This Time.
