

# SURFACE USE PLAN

Harvey E. Yates Company  
Jones Ranch "3" Federal #1  
Sec. 3, T-24S, R-31E  
Eddy County, New Mexico

RECEIVED

JUL 25 1978

U.S. GEOLOGICAL SURVEY  
ARTESIA, NEW MEXICO

1. EXISTING ROADS:

- A. Exhibit A is a portion of a New Mexico highway map showing the location of our proposed well. Travel southeast from Carlsbad on U.S. 285 until you come to N.M. highway 31 turnoff. Turn east and continue on N.M. 31 for approximately 7 miles or until you arrive at junction N.M. 31-128. Take highway 128 and travel east for about 18 miles. There is an existing lease road that heads southwest - turn on this road and go  $\frac{1}{2}$  mile to dry hole. Our proposed location is  $\frac{3}{4}$  mile due west of dry hole.

2. PLANNED ACCESS ROADS:

- A. Please refer to Exhibit B on which the proposed new road is color coded green. The proposed new road will go  $\frac{3}{4}$  mile due west beginning at the afore mentioned dry hole. This road will be 12' X 6" compacted caliche.

3. LOCATION OF EXISTING WELLS:

- A. Exhibit B shows one producing well in the NW/NW on Section 3 and one dry hole in the SE/SE.

4. LOCATION OF TANK BATTERIES, ETC.:

- A. If the proposed well is productive, a pump jack, separator and tank battery with accessories will be installed as shown on Exhibit D.

5. LOCATION AND TYPE OF WATER SUPPLY:

- A. Water will be obtained from commercial sources.

6. SOURCE OF CONSTRUCTION MATERIAL:

- A. Caliche will be obtained from a federal pit located in SE/SE Section 35, T-23S, R-31E.

7. METHODS OF HANDLING WASTE DISPOSAL:

- A. Waste will be buried in reserve pits at a depth of 24". The well site will be cleaned of all waste and this will be done within 30 days after completion of the well.

8. ANCILLARY FACILITIES:

- A. None required.
