Procedure Analysis Cementing

For: Florida Gas Exploration Company
Suite 900, Vaughn Building
Midland, Texas 79701

Re: Ross Draw No. 7
1980' FEL and 1980' FSL
Sec. 26, Twn. 26S, Rng. 30E
Eddy County, New Mexico

The purpose of this analysis is to recommend the equipment and materials for cementing the surface casing in the referenced well. Price estimate includes 4% price increase effective 12-1-78.

Surface Casing: 13 3/8" casing x 17 1/2" hole set at 300'
(Recommend circulating cement using 100% excess.)

Pump Truck plus mileage	\$ 350.00
315 sacks Class "C" cement, 2% calcium chloride	1,614.50
(6.3 gals./sk. water 14.8 lbs./gal. density 1.32 cu.ft./sk. yield)	
Transportation on cementing materials	<u>302.02</u>
Cost Estimate: Truck and Materials (including 4% price increase effective 12-1-78)	\$2,357.18
