August 7, 1979

Procedure Analysis CEMENTING

For: Florida Exploration Company
900 Vaughn Building
Midland, Texas 79701

Attn: Mr. Carl Speight

Re: Ross Draw No. 8
1650' FNL, 1650' FEL, Sec. 27, TWN 26S, Rgc. 30E
Eddy County, New Mexico

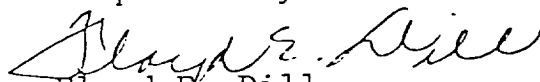

The purpose of this analysis is to determine the equipment and materials necessary to cement the surface, intermediate casing, and production casing in the referenced well.

Halliburton Services is pleased to have this opportunity to present this proposal for your consideration. Information provided includes (1) well data, (2) cementing recommendations, (3) floating equipment, and (4) cost estimates.

If you accept our proposal, all materials and equipment furnished and services performed will be under General Terms and Conditions and pursuant to our applicable Work Order Contract (whether or not executed by you). Copies of the General Terms and Conditions and applicable Work Order Contract will be furnished on request.

Mr. Speight, we earnestly solicit the service work to be performed on this well. Services will be coordinated by Joe Palmore, Assistant Superintendent, at Artesia, New Mexico. Mr. Palmore can be reached at 505, 746-2757. We look forward to working with you to provide the very best cementing service available.

Respectfully submitted:

Floyd E. Dill
