Re: Surface Development Plan  
Proposed Marquardt Federal Well No. 3,  
1650' FSL & 1650' FWL of Section 12,  
T-25-S, R-26-E, Eddy County, New Mexico

U. S. Geological Survey  
P. O. Drawer 1857  
Roswell, New Mexico 88201

Gentlemen:

The surface use and operations plan for the proposed well are as follows:

## 1. Existing Roads

- a. Exhibit "A" is a portion of a general highway map showing location of the proposed well as staked. Go south out of Carlsbad, New Mexico, on U.S. Highway 62 and turn left onto the Old Caverns Highway for 10.4 miles south to the intersection with Highway 396. Continue south on the unpaved road 7.8 miles and turn right through cattleguard. Follow the main road 1-3/4 miles and turn right, going 1 mile to proposed road. Take proposed road north for 860'.
- b. Exhibit "B" is a plat showing all existing roads within a one-mile radius of the well site.

## 2. Planned Access Roads

- a. Length and Width: None required
- b. Turnouts: None required
- c. Culverts: None required
- d. Cuts and Fills: None required
- e. Gates and Cattleguards: None required

## 3. Location of Existing Wells

The nearest producing wells are Gulf Marquardt Federal No. 1, located approximately 1 mile north of the proposed location, the Grynberg Federal Com No. 11, located one-half ( $\frac{1}{2}$ ) mile west of the location, and the Marquardt Federal No. 2, located 300' west of the location.
