U.S. GEOLOGICAL SURVEY
ARTESIA, NEW MEXICO

Gentlemen:

The surface use and operations plan for the proposed well are as follows:

1. Existing Roads

- a. Exhibit "A" is a portion of a general highway map showing location of the proposed well as staked. Go south out of Carlsbad, New Mexico on U.S. Highway 62 and turn left onto the Old Caverns Highway for 10.4 miles south to the intersection with Highway 396. Continue south on the unpaved road 6.8 miles and turn right through the cattleguard. Go west .8 mile, turn right and go north .1 mile to proposed location for Federal Com "13" #1 in Section 13, T-25-S, R-26-E.
- b. Exhibit "B" is a plat showing all existing roads within a one-mile radius of the well site and the planned access road.

2. Planned Access Roads

- a. Length and Width: Required new road will be 200' long and 12 feet wide and constructed of caliche compacted and watered to a depth of six (6) inches. The new road is labeled and color-coded red on Exhibits "A" and "B".
- b. Turnouts: None required
- c. Culverts: None required
- d. Cuts and Fills: None required
- e. Gates and Cattleguards: None required
