

INEXCO OIL COMPANY

December 29, 1980

New Mexico Oil Cons. Comm,
Drawer DD
Artesia, New Mexico 88210

Attention: Mr. Bill Gressett

Dear Sir:

As per our telephone conversation December 29, 1980, I am enclosing schematic drawings of Inexco Oil Company's standard blowout preventor hookups. Also be advised that our casing program should be revised to show setting of 16" casing at 150' and that the 5" casing shown is intended as a liner from 8900' to 11,750'

Prior to moving the rig I will be in contact with you to be certain no other items are required. Thank you for your assistance.

Yours very truly,

Abner W. Cook
Operations Manager
Western Region
