Re: Amoco Federal
#1-A-26-25-27

Gentlemen:

Our files show Wayne Moore as operator of this well. Cementing of the 4½" casing was the last form that was filed by them.

Before an allowable can be issued for this well, a change of ownership must be filed, and a C-105, Well Completion report, with both front and back of report filled out.

It is possible that you have sent your reports to the federal office and we have not received them yet. If so, if you would send us a copy of them, we could process your Assignment of Allowable.

Sincerely,

Leslie A. Clements
Leslie A. Clements
District Supervisor
