13 Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Pogo Producing Company respectfully requests permission to leave the subject well shut-in and hereby advises that said well is a well capable of commercial production. Said well is currently shut-in due to a lack of an available gas market. Pogo expects that this well will remain shut-in until such time as it can procure a buyer for the gas. A Casing Integrity Test will be performed in the near future in conjunction with Pogo's herein request for BLM permission to leave such well shut-in, along with a eight (8) hour Production Test to prove that such well is capable of producing in commercial quantities. Proper notification will be given to the BLM when the Casing Integrity Test and Production Test are to occur so that the BLM can give prior approval to such tests and so that the BLM can witness such tests. An additional Sundry Notice will be submitted to the BLM with the results of such tests after such tests are performed. Please note that Pogo plans on scheduling the subject tests as soon as possible.

14 I hereby certify that the foregoing is true and correct	Richard L. Wright	Date	March 22, 1994
