Re: Stateline Federal
#1-D-35-26-29
Brushy Draw Delaware

Gentlemen:

We are returning your C-104 dated November 21, 1983, so that you can show whether or not the gas is connected. If the gas has been connected, we will need a connection notice.

Also, your permit to flare casinghead gas expired October 12, 1983, unless the Bureau of Land Management granted an extension to the ruling. If they did so, we will need a copy of the extension.

Very truly yours,

Leslie A. Clements
Supervisor District II
